

Welcome to the website of Ariteco Ltd.

Our company develops and produces coatings products used in manufacturing of wooden furniture and wooden toys.

More than 20 years we are developing and providing complete industrial coatings solutions and consultancy for the wood processing industry. Following the recent global trends for switching to [green technologies](#) , which are safe for the people and environment, we actively develop new products which comply to the newer and stricter requirements and regulations. We are very passionate about the fact that we are providing solutions that really make the difference by allowing our industry to stay competitive and develop in harmony with the environment, without any harm for the health of the personnel and the consumers.

On our website you will find information about the products and services we are providing as well as articles dedicated to environment preservation, types of wooden coatings and related technologies, etc. We hope that the published information will be interesting and useful for our customers, fellow professionals from our field as well as for anybody interested in these matters.

If you need more information, do not hesitate to contact us – we will be glad to hear from you.

Yours sincerely,

The Ariteco team
